

## Wisconsin Trialogue

Diocese of Eau Claire | Diocese of Fond du Lac | Diocese of Milwaukee

- The purpose of the **Trialogue** is to enable members of the three Episcopal dioceses in Wisconsin to explore how reunification into one diocese can better equip us to be the church God is calling us to be in these times.
- The goal of the **Task Forces** is to bring in everyone so desiring to participate which would create buy in. They are to be the beginning, middle and end of the work.

### TRIALOGUE TASK FORCE GUIDELINES AND EXPECTATIONS

#### Background

The Episcopal dioceses of Eau Claire, Fond du Lac, and Milwaukee are exploring how reunification as one diocese may better equip us to be the church God is calling us to be in these times. A Steering Committee formed task forces to examine elements as part of a reunification proposal. The task forces are to involve many voices to generate ideas under their area or focus that may be considered for inclusion in a reunion proposal.

#### Area of Focus

Each task force has an area of focus which is a component of the trialogue. It is likely that one task force's area of focus may overlap with another task force, so each will have a Steering Committee liaison to communicate and help coordinate which task force may take the lead.

#### Membership

Initial members are selected by the Steering Committee with representation from each diocese. They may invite others to become members to ensure diversity in representation as well as connect persons with experience or expertise in a focus area.

#### Organization

Each task force is to develop procedures to function within its area of focus. Procedures which may work for one task force may not be the best for another. Each task force is expected to have at least one facilitator ("chair" or "co-chairs") who will make meeting arrangements and facilitate discussion and one clerk to document discussion for future reference by the task force and Steering Committee. This written record will be essential for communication to the Steering Committee and other task forces.

#### Outcome

The work of each task force is to perform careful study in its area of focus in the context of three dioceses becoming one and report on its findings to the Steering Committee. The Steering Committee may, from time to time, ask a task force to perform specific action items. Findings are likely to be fluid and may be influenced by reports from other task forces. Reporting is both a one-time event and on-going as the work moves ahead. What is specifically reported will be a function of area of focus and how it is reported may vary. The Steering Committee may request a report which provides options and/or recommendations about the area of focus as it prepares a proposal to consider.

#### Timeline

Each task force's work is to be regularly moving forward. Some work may be immediate activity (e.g. Prayer and Discernment) while others may see more activity in the future (e.g. Constitution and Canons). Each task force is to meet at least monthly, even if for a short, check-in gathering. The Steering Committee expects to receive a report at least quarterly. It is important to note the work of task forces will likely not end with a finalized reunion proposal but may change when such a proposal is acted on. The goal is for conventions to consider a proposal in October 2023, though more time will be allowed if a proposal is not ready to be presented.
